

JORDAN MODDES

SENIOR OPERATIONS & SUPPLY CHAIN PROGRAM LEADER

Austin, TX | 262-705-0853 | jmodwork@gmail.com | [linkedin.com/in/jordanmoddes](https://www.linkedin.com/in/jordanmoddes) | [jordanmoddes.com](https://www.jordanmoddes.com)

PROFILE

Accomplished and results-driven professional with extensive experience in optimizing global supply chains, driving operational excellence, and delivering measurable cost savings. Remarkable efficiency in leading multi-site operations, stabilizing underperforming facilities, and implementing transformative programs, encompassing labor planning, inventory management, process automation, and ERP-enabled analytics. Skilled in designing cross-functional initiatives, standardizing SOPs, and cultivating high-performing teams to align with organizational objectives.

AREAS OF EXPERTISE

- Multi-Site Operations Leadership
- Distribution Network Management
- Supply Chain Optimization & Strategy
- High-Volume Logistics Management
- Cost Reduction & Value Creation Initiatives
- Inventory Planning & Material Flow Control
- Cross-Functional Team Leadership
- Performance Metrics Development
- SOP Development & Standardization

PROFESSIONAL EXPERIENCE

Inventory Specialist/Material Scheduler | MilliporeSigma (Merck KGaA), Round Rock, TX

09/2025 – Present

Oversee material-flow planning and production-step monitoring for approximately 14K SKUs within 300K product portfolio with focus on supporting 64 global distribution centers. Create reporting frameworks and operational dashboards to enable continuous monitoring and optimization of global manufacturing and distribution activities.

Key Contributions:

- Achieved **~97%** efficiency gain by developing Excel VBA automation to identify idle or overdue production steps, cutting a **32-hour** weekly manual review to under **one** hour.
- Reduced site-supported backorders from **€3.7M** to **€2.675M** in eight weeks by driving cross-functional coordination and enhancing planning visibility and escalation management.
- Maintained ERP data integrity across SAP PRD/100, PRE/100, PRP/100, and Macola while aligning planning, warehouse, and lab teams to sustain product availability and distribution SLAs.

Operations Manager II (Acting Senior & Program Leadership Roles) | Amazon, TX, VA, WI, Remote

06/2021 – 03/2025

Managed 21-day labor forecasts and weekly volume planning for 600+ employees across 3.25M sq ft, supervising 13 direct salaried reports. Standardized Hazmat SOP execution and compliance processes across NACF facilities through collaboration with ACES and Safety teams organization-wide. Served as acting senior operations manager for six months, including peak season, maintaining safety, finance, and escalation management with minimal executive involvement. Facilitated over 30 internal promotions from frontline to salaried leadership by executing structured coaching programs and comprehensive center-work documentation practices.

Key Contributions:

- Achieved full ROI in under six months by redesigning dock throughput, optimizing lane assignments, and enhancing staging flow region-wide.
- Generated **\$3.6M** in annual operational value through execution of the Lane Dash logistics optimization program, a **\$1.28M** capital-approved initiative.
- Boosted throughput from **110** to **165** UPH and reduced defects from **3,600** to **210** DPMO within six weeks by directing rapid improvement team initiatives.
- Restored product flow efficiency by resolving an eight-month NonCon inventory backlog in 6.5 weeks through redesigned routing logic, SOPs, and execution metrics.
- Increased operational planning accuracy organization-wide by implementing VBA reporting automation across **90+** Amazon network sites, eliminating manual processes.

Redesigned NonCon routing logic for adoption across 12 sites and rebuilt Waterspider workflow stations using 5S methodology and operational improvements. Supported 10+ Amazon launch sites over 15 months, visiting 25+ facilities, generating operational white papers and internal wiki standards for deployments.

Key Contributions:

- Improved stow quality by +19% team-wide, +11% site-wide, and +4% regionally via standardized training programs and structured feedback cadences.
- Increased inbound UPH by 29% and reduced quality defects by 81% through floor-level diagnostics, workstation redesign, and execution discipline rebuilds.

Accepted and processed transportation orders while coordinating logistics and scheduling timely dispatch operations. Assigned drivers to routes based on delivery priorities, driver availability, and route efficiency to maintain smooth transportation flow. Oversaw vehicle maintenance scheduling to ensure fleet readiness, safety compliance, and minimal operational downtime. Managed executive-level and Johnson Family special transportation requests with discretion to ensure timely and high-priority service delivery.

Key Contributions:

- Achieved distribution of high-volume consumer goods across multiple channels by directing outbound logistics operations.
- Improved on-time delivery performance by implementing comprehensive scheduling frameworks and optimizing carrier communication protocols.

Finalized employee schedules to ensure optimal staffing coverage and aligned weekly payroll hours accurately. Conducted weekly inventory audits and evaluated stock levels with focus on maintaining accurate inventory records. Coached sales staff, designed effective floor plans, and strengthened customer service to increase sales. Performed daily cash audits, reported results to corporate, and delivered ongoing compliance training programs.

Key Contributions:

- Achieved 95–98% inventory accuracy while directing operations of \$3M annual revenue department.
- Standardized location-wide inventory management routines and enhanced team efficiency by implementing structured processes in high-volume retail environment.

EDUCATION

Bachelor of Business Administration (BBA) | Bryant & Stratton College, Wauwatosa, WI

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Professional Certificates: Operations Management, Senior Leadership, Program & Project Leadership, Negotiation Professional Certificate – American Negotiation Institute, 2026

Process Improvement & Operational Excellence: Six Sigma (Foundations Course Work– Black, Green, Yellow Belt)

Data, Analytics & Automation: Advanced Excel Dashboards & Automation

Technology & Operations Platforms: AI & Prompt Engineering, ITIL Incident Management, Security Fundamentals

TECHNICAL PROFICIENCIES

SAP (PRD/100, PRE/100, PRP/100) | Macola ERP | Microsoft Excel (Advanced) | VBA Automation | PivotTables | Power Query | Operational Dashboards | Amazon Fulfillment Systems | Warehouse Management Systems | Inventory Control Systems
